

Bamber Bridge 4.8 mile Ride Route

This route is used for South Ribble Borough Council's Sports Development Team to lead children from schools in the Bamber Bridge area on a ride following their Bikeability Level 2. The route heads along quiet residential roads and designated cycle paths, past some local beauty spots and areas of water. The route has been designed so that any of the schools in the Bamber Bridge area can join it – you do not need to start it at Cuerden Church Primary School as per our map.

This route has been identified and is used by qualified instructors as a cycle friendly route for our Bikeability Ride Programme. This could provide a cycling adventure for schools or family groups. South Ribble Borough Council's Sports Development Team recommend that all riders wear a helmet when riding their bike. Any bikes used should be in a road worthy condition. Riders should wear appropriate clothing and a smile. Some routes cross busy roads so we recommend adult supervision.

Ride Safe!
